**PRODUCT NUMBER**

#5916 – Premium Quick Finish Clearcoat (Aerosol 18 oz.)

**DESCRIPTION:**

#5916 is an easy to use (Acrylic Enamel Aerosol) for “cutting in” replacement parts and door jambs.

**DIRECTIONS:**

(1) Use at room temperature (70°F) for best results. Do not paint on days when humidity is high. (2) Shake can for two full minutes. Repeat for 10 seconds after each minute of use. Clear has no mixing ball. (3) TO SPRAY, hold can 6-8 inches from surface. Use steady, even strokes, keeping can parallel to the surface throughout the stroke. Avoid drips and runs by applying several thin coats at one spraying. (4) If spray button becomes clogged, pull off and clean. DO NOT stick pins or wire into can opening. Replace spray button firmly with valve opening pointed away from you. (5) To clean valve after use, invert can and spray until only gas comes out. Discard empty can in trash pick-up. Do not burn, incinerate, or place in home garbage compactor. The FANSPRAY valve requires 50% less finger pressure than a standard valve. Allows greater coverage with less overspray, and manipulates like a professional spray gun.
